Titanium

Bronze

**AZEK Bench & Planter Kit**  
 What better way to embellish your AZEK Deck or Porch than with an accent piece that is not only aesthetically pleasing but highly functional as well. The AZEK Bench and Planter Kit has a beautifully integrated, adjustable bench with two flower boxes at each end to add that special touch. Choose a color to match your AZEK Deck or AZEK Porch or one that complements your space and style.

The full bench/planter extends to a maximum length of 10 ft. 7 in., but can be adjusted to a bench length of 4, 5, or 6 ft. With a customizable setup and two hardware finish options you have the freedom to make it your own.

## Outdoor Living Solutions

### AZEK In-Deck Storage Kit

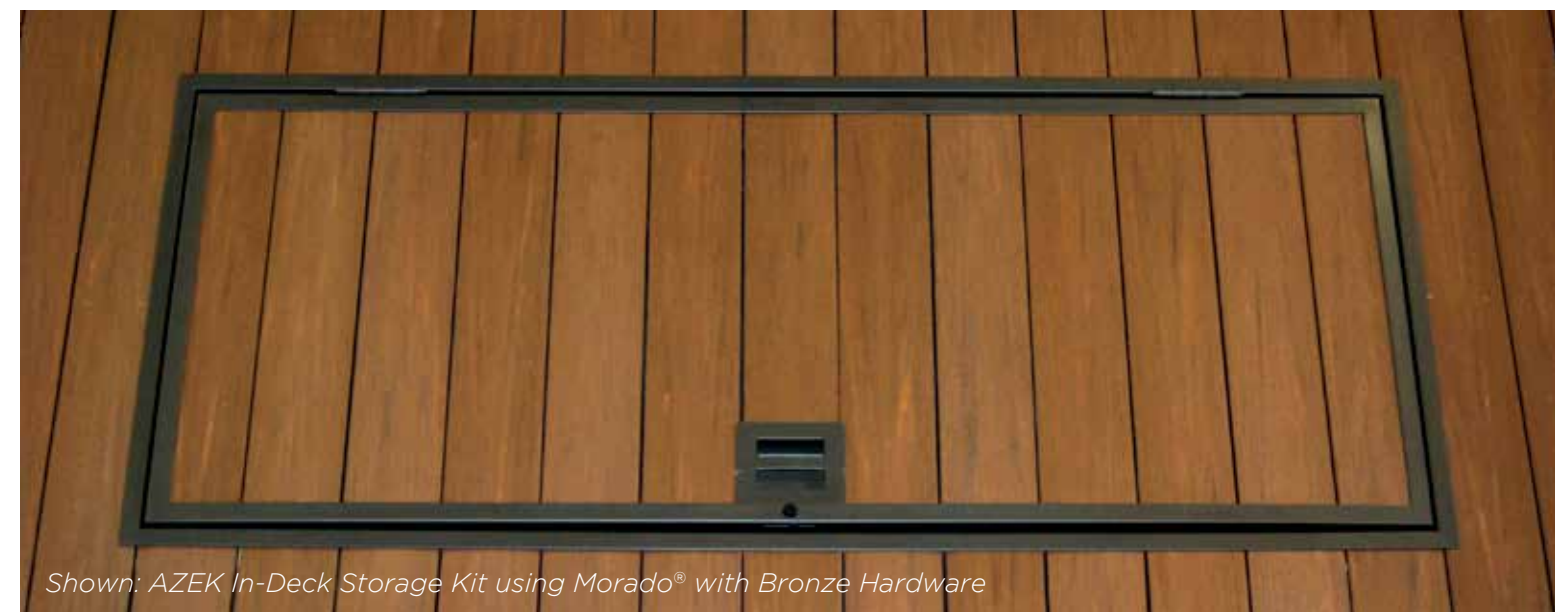

Are you tired of trying to find a place to safely store furniture cushions, umbrellas or other deck items? The AZEK In-Deck Storage Kit is the perfect way to lose the unattractive deck storage boxes and reclaim the deck space to expand your outdoor living area. This functional, attractive and concealed storage solution is a creative and integrated way to use space on your AZEK Deck.

Measuring just over 6 ft. long and holding 17.5 cubic feet of storage space, the AZEK In-Deck Storage Unit has been designed with safety in mind. The gas-assist hinges make lifting the lid easy and the locking mechanism can only be engaged from the outside using a key.

The kit hardware is available in two finishes: Titanium and Bronze.

Versatility and customization are the number one and number two philosophies of AZEK Pavers. With five stone-like color options, you can mix-and-match your paver surface to create a truly unique design. Customize your project to match your personal style with one of many possible patterns, e.g., Running Bond, Herringbone, Basketweave, Plain Weave, Block Lattice or Soldiered.

Engineered to resist cracking and staining, AZEK Pavers provide long lasting good looks and are guaranteed for life not to crack (residential applications only).

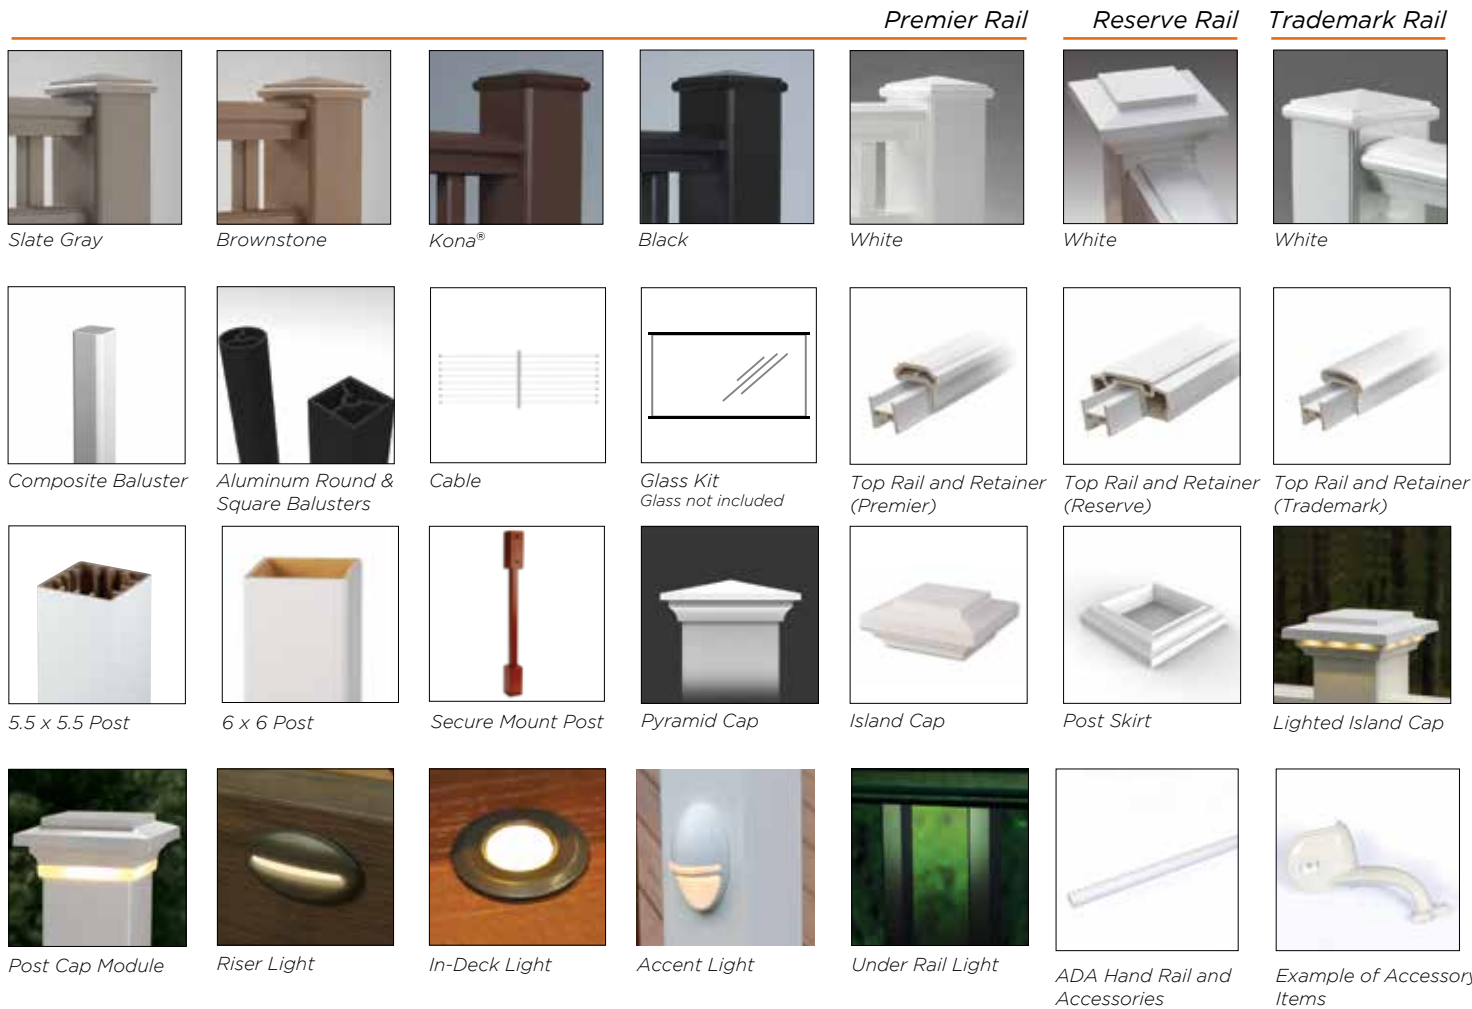

AZEK Pavers use a patented grid system that dramatically reduces installation time and takes the frustration and difficulty out of manually setting and aligning heavy concrete pavers.

Made from up to 95% recycled materials, AZEK Pavers help projects earn LEED certification easier than any other pavement. AZEK Pavers outperform other pavers in LEED contribution, such as concrete pavers with fly ash, by more than 10 times.
